*A1*  
17. A self-service terminal having been retrofitted to allow the terminal to execute transactions entered using a wireless telephone, wherein said terminal did not allow transactions to be entered using a wireless telephone prior to retrofitting.

18. A self-service terminal having been retrofitted to receive a transaction from an authorized source external to the terminal, wherein said terminal was unable to receive transactions from said authorized source prior to retrofitting.

19. A self-service terminal including a program storage device, the device having been upgraded to encode a program of instructions for monitoring an external source and for receiving a transaction from an authorized source via the external source, wherein the terminal was unable to receive transactions via the external source prior to upgrading.
